The VLS is supporting ongoing and future virtual learning needs at all Ontario Indigenous institutes, colleges, and universities.

The VLS investment is:

✅ Helping make the next semester better than the last

✅ Accelerating the transition from emergency remote teaching to high-quality online learning

✅ Preparing the Ontario postsecondary sector for a future of hybrid learning

✅ Positioning Ontario as a global leader and innovator in virtual learning

VLS Framework

The Virtual Learning Strategy is built on three key pillars:

**Being the future**
Providing sector supports to drive a continued co-existence with hybrid learning: Ensuring learners have high-quality education: anytime, from anywhere. This requires quality and innovation, better data, and digital access to enable lifelong learning and fuel Ontario’s global competitiveness.

**Being a lifelong learner**
Enabling learners to meet the needs of the rapidly evolving labour market at any stage of their careers by providing digital supports and infrastructure for new short duration training.

**Being a global leader**
Strengthening Ontario’s leadership domestically and globally, by expanding access for Ontario’s institutions to the global marketplace for virtual learning. With this, we aim to position Ontario as a global leader for virtual innovation in teaching and learning, including Ontario educational technology companies.
